

Technology Offerings:

R&D Catering Banquet Facility does not only the best in catering and banquet options, but also includes all the latest state-of-the-art technologies to enhance and ease your banquet experience.

Wireless Internet:

R&D Catering and Ready Randy's Sport's Bar & Grill offer high-speed wireless internet to it's clientele at no additional cost. The facility is equipped with Frontier DSL and 802.11n (b&g compatible) wireless routers. It is understood by the client that there is limitation to how many computers can be on the internet at one time. For best results it is recommended that the main presenter requiring an internet connection is given priority and any other online traffic (i.e. e-mail, downloads, etc.) are kept to a minimum. Please speak to your server or banquet coordinator regarding current security connection settings. *R&D assumes no responsibility for any computer damages or offensive materials incurred while on the wireless network.*

Media Screens & Projectors:

R&D Catering Banquet Facility is equipped with built-in, drop-down eight foot screens and DLP projectors. Easy floor level connections are available for laptop video output connections in all three rooms. Also available in the larger two rooms are DVD and VCR players for media brought in finalized and prepared to play in any house-hold player. Any of which are piped into our full in-ceiling speaker system for the richest sound quality available to compliment your media presentation. *R&D assumes no responsibility for damaged media or computers while using any of the media presentation options.*

Microphones & Speaker System:

R&D Catering Banquet Facility is equipped with the best in audio technologies. Full flush-mount ceiling speakers surround the banquet facilities with the richest sound possible. Special acoustic ceiling panels are installed as well in each room enhancing the speaker system. Three microphone options are available as well at no additional charge. Wireless FM traditional, wireless FM clip-on and wired Shure band microphones provide each individual client with their own preferred method. *It is understood by the party that they are responsible for costs incurred by any physical damages to any of the audio and video equipment while in use by their gathering.*
